Suitable for most 19-inch racks and cabinets, these drawer units provide a secure storage compartment. They are available in two colours and three heights.

A welded steel drawer slides on telescopic slides mounted within a sleeve. When closed, the front of the drawer is flush with the rack-mounting brackets. A handle and cylinder lock are provided on the drawer-front.

It has front and rear mounting angles, adjustable between 400 – 570mm with a drawer depth of 400mm.

Finish: Light grey, RAL 7035, or black, RAL 9004, powder coat.

Load capacity: 50 kg Max
