

## Halo Microphone

STS-M72 / STS-M98

This microphone features a noise cancelling capsule and a halo light indication (at the base of the microphone stem), which lights up green when the system is working correctly and red when there is a fault detected.

It is suitable for use in customer facing situations where there may be a high ambient noise level, and it can be easily mounted to a table top using standard self-adhesive pad.

This microphone comes standard with our 1 to 1 hearing loop kits.

Also available with a brass stem.

### Physical Data (boxed)
