

Power supply holder for RPS A200

Features

- Compact design
- Accommodates 1 power supply
- Innovative locking system to secure power supply
- Easy installation
- Compatible with RPS A200 power supplies

Description

Managing external power supplies can be challenging when striving for a clean, organized installation. The RXT A200 power-supply holder, designed for the RPS A200, can be mounted vertically or horizontally onto any 19" bay. It streamlines cable management by securely fixing the external supply for a neat, professional setup.

The RXT A200 secures a single RPS A200 power supply. Use two holders to accommodate both main and redundant power supplies.

An innovative locking mechanism keeps the power supply firmly in place, preventing movement during transport or when installing additional equipment.

Technical Specifications

Size	186mm x 82mm x 52mm (7.3in x 3.2in x 2in) excluding bracket
Weight	285g (10oz)
Model #	RXT A200 (EAN# 4250479729780)
