

Product specification sheet

Product title | 3I-2213-12WMC null

Description

The 3I-221312WMC Wireless Mic case is part of the Waterproof iSeries of cases with a custom foam interior to protect a variety mic brands including Shure and Sennheiser.

This custom foam interior is designed to hold sixteen handheld wireless microphones vertically. On the side is a removable tray with pick and pluck foam that can be used to hold body pack transmitters or other accessories. Below the tray is space that can be used for cables, direct boxes, and other equipment. This case features a pull out handle and wheels for easy transport.

iSeries injection molded waterproof cases are constructed of ultra high-strength polypropylene copolymer resin and feature a waterproof, submersible design (IP67) that is resistant to corrosion and impact damage. Its molded-in hinge, trigger release latch system, comfortable, snap-down rubber over-molded cushion grip handle, secure stacking, and automatic ambient pressure equalization valve (MIL-STD-648C) all contribute to its military grade design.

Features
