The URSA Tape Soft Strips are manufactured from moleskin applied to hypoallergenic sticky tape. Intended for applications that include camouflaging microphones and taping down microphone cables to the body, the strips are also good at reducing clothing rustle. The tape can be cut, (but not torn), to suit a particular application for example, cutting a large oval shape to tape down and camouflage a DPA Concealer. Black URSA Tape Soft Strips are Jet Black to hide perfectly in shadows and has a woven fabric effect to help blend with knitted fabrics.

Small strips dimensions: 80mm x 25mm
 Large strips dimensions: 150mm x 75mm

Small Strips available in packs of 30, colours Beige, White, Black, Brown and Chroma Blue.
 A Multicolour 12 pack consists of 4x White, 4x Black and 4x Beige small strips.
