VT60M Miniature Earphone

VT60M Miniature Earphone

The VT60M is a very small and extremely lightweight Earphone, totally unobtrusive and in most cases almost invisible!

The built-in receiver is connected with a thin cable and the Silicon Earpiece at the end of the receiver is placed directly into the ear canal, facilitating high quality sound as well as isolation from outside noise.

The ideal solution for stage presentations, theatre and broadcast studio operations.

The VT60M comes in a silver metal box with a clip and an additional earpiece.
